## SPILL & EMERGENCY MANAGEMENT

When an environmental emergency occurs, you need a team that can help you respond quickly and effectively. Whether serving as your organization's EMT/SMT, or complementing your existing team by filling specific positions, we work with you from start to finish. In fact, we are currently responsible for a large number of offshore and onshore platforms, transportation companies, facilities, pipelines, and vessels operating domestically and abroad.

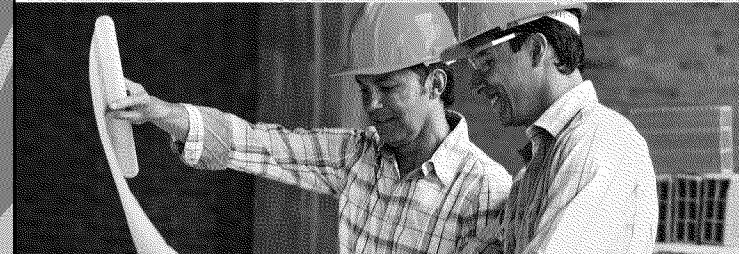

Forefront EM has the experience, knowledge and personnel to:

- Conduct the applicable notifications, including written documentation
- Set obtainable objectives for a response
- Conduct on-site management of all responders involved
- Manage media response
- Act as a liaison with government representatives
- Implement and monitor site safety plans
- Develop Incident Action Plans (IAPs)
- Abide by the Incident Command System (ICS)
- Conduct over flight trajectories
- Provide financial/logistical support, along with cost tracking
- Provide access to our state of the art command posts

## RESPONSE PLANNING

- EPA & USCG Facility Response Plans (FRPs)
- Oil Spill Response Plans (OSRPs) - Regional and Sub-Regional
- Operations (OPS) Manuals
- Spill Prevention, Control and Countermeasures Plans (SPCC)
- Emergency Response Plans (ERP)
- Tank and Non-Tank Vessel Response Plans (VRP/NTVRP)
- Shipboard Oil Pollution Emergency Plans (SOPEP) & Shipboard Marine Pollution Emergency Plans (SMPEP)
- Storm Water Pollution Prevention Plans (SWP3)
- Security Plans
- DOT/PHMSA Emergency Response Core and Zone Plans
- Plan Review and Maintenance
- Web Plan Hosting Capabilities
